

Distant relatives

Maybe someone will remember Sniper, the balkan music band active between 1994 and 2003

If you feel nostalgia of our cousins, **davaiciass** can alleviate it since it's, ideally, the mad twin of Sniper

In other words, if Sniper looks in the mirror and raises his right hand, **davaiciass** will raise his left foot.

davaiciass TMC

davaiciass TMC is a part of the **davaiciass** project marked by the presence of the Maestro Lello Gnesutta that inspires discipline and sacrifice to a band otherwise anarchic.

The "Informelle Mitarbeiter routine" is a proposal for the 2010/11 season to clubs and small theaters, which encompasses many elements underlying our personal history: Classic Coltrane tunes in odd times and balkanized harmonies, Turkish ballads in funky sauce, fake imitations of jazz, polyphonic Bulgarian songs in walking bass, rearrangements of mythical songs of the Area band, original songs that look like standards and standards beyond recognition

NEW SOUP – OLD HENS

Believed dead by the masses and, in part, actually died, the two heroes of melancholy post '77 are back. With the Maestro and Baby Face they have sarterd a project in which, unfortunately, they are forced to play.
